

VACUUM CHAMBERS FOR LEAK DETECTORS LD SERIES

A seamless complement to our TitanTest™ leak detector as well as all other major leak detector brands, LACO leak detector vacuum chambers easily mount to your leak detector's inlet port and provide the ideal choice for fast and reliable helium leak testing. Choose from our standard chambers, or let our expert applications engineers create a custom chamber to meet your application requirements.

TitanTest™ with LVC0606-3321-LD

FEATURES

- 304 SS or aluminum construction
- Standard sizes ranging from 4" to 12" OD
- Hinged lids for easy access to leak testing parts
- Cylinder and cube configurations

APPLICATIONS

- Designed for fast, reliable helium leak testing
- Suited for vacuum processes

LD SERIES VACUUM CHAMBER STANDARD SPECIFICATIONS

PART NUMBER	DIMENSIONS	CHAMBER	PORT	SEAL	LID
LVC040402-2222-LD	4"W x 4"H x 2"D	Aluminum	NW25 Inlet	Viton O-ring	Hinged Alum.
LVC0404-3321-LD	4"W x 4"H LD	Stainless Steel	NW25 Inlet	Viton O-ring	Removable SS
LVC0606-3321-LD	6"W x 6"H LD	Stainless Steel	NW25 Inlet	Viton O-ring	Removable SS
LVC0808-3312-LD	8"W x 8"H	Stainless Steel	NW40 Inlet	Buna L Gasket	Hinged SS
LVC0808-3321-LD	8"W x 8"H LD	Stainless Steel	NW40 Inlet	Viton O-ring	Removable SS
LVC1012-3312-LD	10.75"W x 12"H	Stainless Steel	NW40 Inlet	Buna L Gasket	Hinged SS
LVC1212-3312-LD	12.75"W x 12"H	Stainless Steel	NW40 Inlet	Buna L Gasket	Hinged SS
LVC1212-3323-LD	12.75"H x 12"W	Stainless Steel	NW40 Inlet	Viton O-ring	Removable SS
